

Recovers up to 98% available silver, Reduces replenishment, and Protects the wash water !

Recovers silver from B & W, E-6, and C-41 photo processing chemistries

Silver Wizard™ J-SERIES

J1t and J2t

Uniquely CSRS

- t **Jumbo Cells And Anodes** afford greater plating efficiency due to the increased plating surface!
- t **The Cross Flow Circulation Booster** increases plating efficiency and reduces agitation in the processor fix tank!
- t **The Dedicated Circulation Pump** takes the load off your processor pump, and will not void the film processor warranty!

J3t and J4t

Purchase When:

- t You want the best system for the most effective silver recovery!
- t You want a product that's recommended by industry leaders
- t You have a wash water carry-over contamination problem.
- t You want to save up to 50% fixer replenishment costs.
- t You are hauling your chemicals, but would like to haul less!
- t Environmental compliance regulations are strict in your area.
- t You want control of the silver recovered from your fixer chemicals.
- t You want equipment that is trouble-free and easy to service.

Guaranteed Not to compromise the integrity of your chemistry! Won't Sulfide Fixer!
